

# Learning Log: Reflect on your skills and expectations

## Instructions

You can use this document as a template for the learning log activity: Reflect on your skills and expectations. Type your answers in this document, and save it on your computer or Google Drive.

We recommend that you save every learning log in one folder and include a date in the file name to help you stay organized. Important information like course number, title, and activity name are already included. After you finish your learning log entry, you can come back and reread your responses later to understand how your opinions on different topics may have changed throughout the courses.

To review detailed instructions on how to complete this activity, please return to Coursera: [Learning Log: Reflect on your skills and expectations](#).

<b>Reflection:</b>	Write 2-3 sentences (40-60 words) in response to each of the questions below.																														
<b>Questions and responses:</b>	<ul style="list-style-type: none"><li>What do you notice about the ratings you gave yourself in each area? How did you rate yourself in the areas that appeal to you most? <i>I have always been a very curious individual, going beyond the scopes of the class during school and assignments because I just had to know why things ticked the way they did. As such I have rated myself confidently in Curiosity, Technical Mindset, and Data Design, but I also acknowledge that I did not always remain within the right context in my analysis and acknowledge that I have an infinite amount of growth to achieve hence my Data Strategy is and will always be developing.</i></li></ul>
